CONSTRUCTION SHELTER FOR LARGE SWIMMING POOL

DESCRIPTION

The construction shelter for large swimming pool is the ideal solution to secure and speed up your work on pools. Its captive air structure is lightweight, stable, and quick to install, with no need for constant inflation.

Made up of waterproof zipped modules, it adapts to different configurations and provides effective protection against the elements.

Designed to offer comfort, confidentiality, and business continuity, this versatile shelter also enhances your brand image with customisation options.

Modular

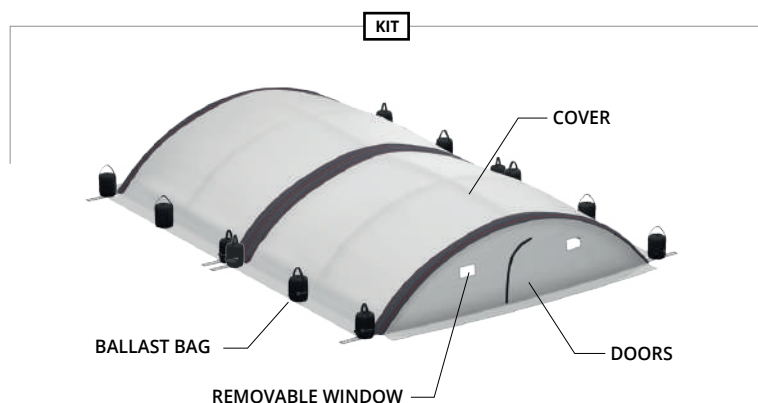

Quick Installation
