SNOW TUNNEL OGIVE SHAPE

DESCRIPTION

When it comes to sports facilities in your ski area, Michelin Inflatable Solutions offers you a mobile, practical and cost-effective solution.

These tunnels are very light and can be easily transported and moved around the station. They can be reused each season and can be stored in a small space thanks to their compact dimensions.

Resistant and self-contained, this snow tunnel is quick and easy to install. Its ogee shape makes it more resistant to melting snow.
