

MICHELIN INFLATABLE SOLUTIONS

Sport & Events

EVENT SHELTER ULTRA-LIGHT

DESCRIPTION

Whether it is a stand for a show or for a general public, an internal event or an external event, the MICHELIN Inflatable Solutions event shelter will adapt to meet your needs.

Its lightness will save you a lot of time during your events, as you will be able to move your shelter even when it is inflated. Set-up is quick and easy, as is deflation, which takes just a few minutes.

The event tent can be used both indoors and outdoors, thanks to its ballast and/or bracing system. Modular, its side covers and fronts are removable, and this shelter can be combined with other modules to provide customised cover to suit your needs.
