

MICHELIN INFLATABLE SOLUTIONS

Sport & Events

MULTISPORT FIELD

DESCRIPTION

By facilitating access to sports for everyone, MICHELIN Inflatable Solutions contribute to education through sports.

The Multisport Field is used for temporary sports events and activities. This inflatable structure, with interior dimensions of 14m x 19m, allows you to host a wide variety of sports such as football, rugby, handball, and even blind football! It is ideal for introducing sports activities within local communities.

It is also available in an XL format.

TESTIMONIAL

To give you a little feedback on the use of the PANNAs over the summer. They are very well adapted and even with a lot of wind we were able to stabilise them with the bags filled with water. The structure is very practical and easy to manipulate. - UFOLEP
