TESTIMONIAL

« We chose this arena because we needed a safe environment in which to develop our aerial drones. Indeed, our professional drone pilot training centres need to operate in an aviary in certain cases, such as demonstrations or machine presentations, in order to protect the public and the airspace if necessary. What's more, our events subsidiary Atra Drone Events uses this Drone Arena for Drone Soccer, and it's exactly what's needed! Lightweight, easy to transport, quick and easy to set up and take down, robust - all the ingredients for successful events! The quality is excellent and the icing on the cake is that it's French ! »
