## INFLATABLE SOLUTIONS

### Accessories

## BALLAST BAG

### DESCRIPTION

This new ballast bag from MICHELIN Inflatable Solutions allows you to weigh down your product on the ground when used outdoors.

This 50kg water ballast has a filling capacity of 50 liters and can be multiplied as many times as necessary to obtain the appropriate ballast according to outdoor conditions.

Compact when empty, it is easy to transport and takes up very little space.

### TECHNICAL DATA

Durable diamond-point cover  
Sturdy carrying strap  
Interchangeable PU inner membrane  
1 inflation/deflation valve with pull tab cap  
1 carabiner  
Empty weight: 920 g.

### INSTRUCTIONS

Check that the inner tube is correctly positioned before filling.  
Fill the ballast with water ONLY.  
Use the carabiner to attach the ballast to a ring on the structure.  
Do not open the zipper as this may damage the inner tube.
