

# COST ADVANTAGES OF CONNECTING YOUR FLEET

## 4% reduction in fuel consumption

Using connected trucks can help optimize tire pressure, analyze routes and promote eco-driving habits to decrease fuel consumption.

## 20% reduction in driving incidents

Having training schemes in place can ensure the safety of your drivers and have real-time visibility of road incidents.

## Up to 10% boost in productivity

Using telematics can help drivers improve behaviors, reduce idle time and use real-time traffic data to find the best routes.

## 34% reduction in accident claims

Having your trucks equipped with cameras can help capture traffic incidents to determine who is at fault – reducing insurance claims.
