FEBRUARY 15-19, 2027
MARCH 15-19, 2027
OCTOBER 4-8, 2027

THE KNOWLEDGE YOU NEED TO HELP MAXIMIZE TIRE PRODUCTIVITY

HELPING MINES ACHIEVE THEIR PRODUCT SOLUTIONS SUPPORT SAFE, SMART AND SUSTAINABLE GOALS
MICHELIN BETTER MINING

MICHELIN TIRE TECHNOLOGY AND BEST PRACTICES

Chances are, you understand the crucial role tires play in daily site operations. Like any other vital business asset, tires require proper asset management to maximize ROI. Join Michelin's team of experts in an upcoming seminar to discuss practical strategies designed to help mining operations advance their safe, smart, and sustainable goals.

Key topics & activities include:

- Rim & Tire Safety, facilitated by Klinge
- Tire Basics: Load & Pressure, Wear, Heat Mgmt., TKPH
- Tire Science and Productivity
- TPMS & Tire Management System (TMS)
- Tire Damage Analysis
- Operational Best Practices at the Mine Site
- Strategic Tire Team Development
- Tour of Michelin Earthmover Tire Manufacturing Facility

Every attendee will leave with a roadmap & working plan for improved productivity.

Event Overview

Monday - Travel to Greenville, SC (GSP)
Tuesday - Mining Seminar at MSTC
Wednesday - Plant Tour; Group Activity
Thursday - Mining Seminar at MSTC
Friday - Travel home
