WE OFFER
RIDERS A LEVEL
OF ASYMMETRY
UNPRECEDENTED

At Phillip Island, the combination of the highly asymmetrical layout and the changing weather frequently pushes the tires to their limits. As with previous visits, we have refined a specific range of tires for this circuit. By working on the rubber compounds, we offer riders a level of asymmetry unprecedented in the rest of the range. On the other hand, the internal structure remains what we consider 'standard', the layout

not requiring any particular adaptations. While the track lap record remains in our sights, rider safety is our top priority. In Australia, the versatility of tires and the responsiveness of the teams will be crucial, with very changeable weather and cool temperatures, the right choice of tires will be essential. Grip, endurance, longevity, consistency and fast warm-up: this track requires the 'complete' tire!
