

**Michelin partner of the 1st International Motor Show of Monaco
(16-19 February 2017) reaffirms its commitments to sustainable mobility**

The Michelin stand will highlight the latest tyre innovations and technological partnerships; tangible proof of MICHELIN's commitment to sustainable mobility:

- **The MICHELIN CrossClimate +**

Innovative new tyre with excellent performance which continues from the first mile to the last in all weather conditions

- **The MICHELIN Pilot Sport EV2**

A high performance product that demonstrates the true marriage of a motorsport tyre with energy efficiency

- **Exhibition of a Formula-E and Roborace prototype of an autonomous motorsport car**

Reinventing motorsport and competition to prepare tomorrow's mobility

- **Movin'on by Michelin**

Uniting stakeholders in the mobility of tomorrow

- **Exhibition of the Green GT H2 Speed, the first electric / hydrogen competition prototype designed by Green GT and Pininfarina.**

Partnership Symbio F Cell, pioneer of the fuel cell

Supporting the hydrogen sector

Claire Dorland Clauzel and Florent Menegaux, members of the Group's Executive Committee will present Michelin's vision on Future Mobility at the Grimaldi Forum on Friday, February 17 at 10:00 am.

Guided by its purpose, the Michelin Group intends to put its innovative capacity at the service of products and services that promote sustainable mobility while building partnerships with private and public players to help build the mobility of tomorrow.

Michelin, the leading tire company, is dedicated to enhancing its clients' mobility, sustainably; designing and distributing the most suitable tires, services and solutions for its clients' needs; providing digital services, maps and guides to help enrich trips and travels and make them unique experiences; and developing high-technology materials that serve the mobility industry. Headquartered in Clermont-Ferrand, France, Michelin is present in 170 countries, has 111,700 employees and operates 68 production facilities in 17 countries which together produced 184 million tires in 2015.
