

MICHELIN

A BETTER WAY FORWARD

OCTOBER
25,
2021

***SALES AT
SEPTEMBER 30, 2021***

A person wearing a helmet and riding gear is riding a motorcycle on a dark asphalt road that curves through a mountainous landscape. The road is bordered by large, rectangular stone blocks. The background shows steep, rocky hills with some sparse vegetation. The lighting suggests it might be late afternoon or early morning, with long shadows cast across the road.

1

2021 Q3 & 9 MONTHS SALES

DESPITE A TURBULENT ENVIRONMENT, THE GROUP REPORTED €17.2BN IN SALES FOR THE NINE MONTHS ENDED SEPT 30, A RISE OF 15.6%

- The environment in which the Group is currently operating is characterised by:
 - the persistent health crisis
 - extensive disruption across every supply chain
 - rising raw materials, logistics and now, energy costs
 - worsening labor shortages in North America and, to a lesser extent, in Europe
- As comparatives turned less favorable than in H1, demand varied widely in the third quarter:
 - the OE PC/LT tire market fell 21% over the quarter, dragged down by the ongoing chip shortage, while the RT segment was stable
 - the Truck tire market continued to expand outside China, gaining 7% over the quarter, but plunged by a steep 30% in China
 - demand in the Specialty markets remained robust, with a particularly strong rebound in the OE Construction and Agricultural tire segments
- With sales of €6 billion in the third quarter, consolidated sales ended the first nine months at €17.2 billion, up 15.6% year on year:
 - 14.8% growth in tire volumes, of which 1.3% in the third quarter
 - a 2.8% gain from price increases designed to offset sharply rising costs
 - a 1.3% increase from the mix effect, reflecting market share gains in the 18”+ segment and a favorable OE/RT mix in the Automotive division
 - a 5.8% increase in non-tire sales
 - a 3.5% decrease from the unfavorable currency effect
- The Group maintains its guidance for 2021⁽¹⁾

⁽¹⁾ Barring any new systemic impact from Covid-19, such as deeper supply chain disruptions or tighter restrictions on freedom of movement that could result in a significant drop in the tire markets.

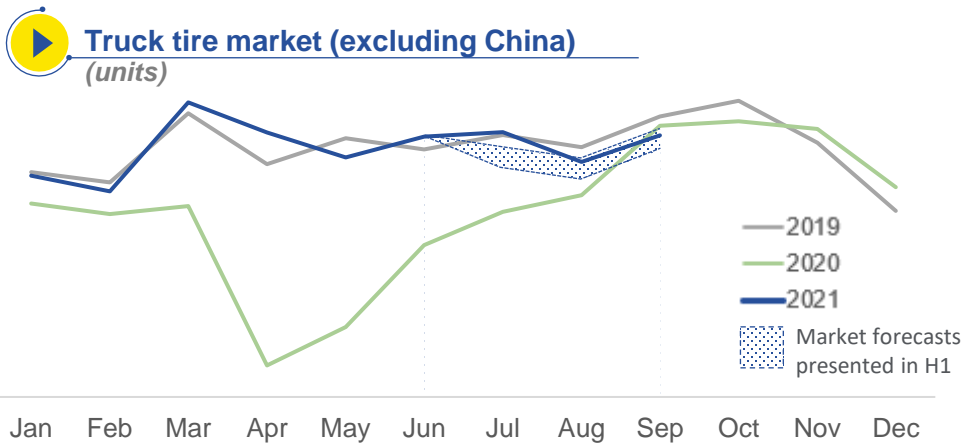

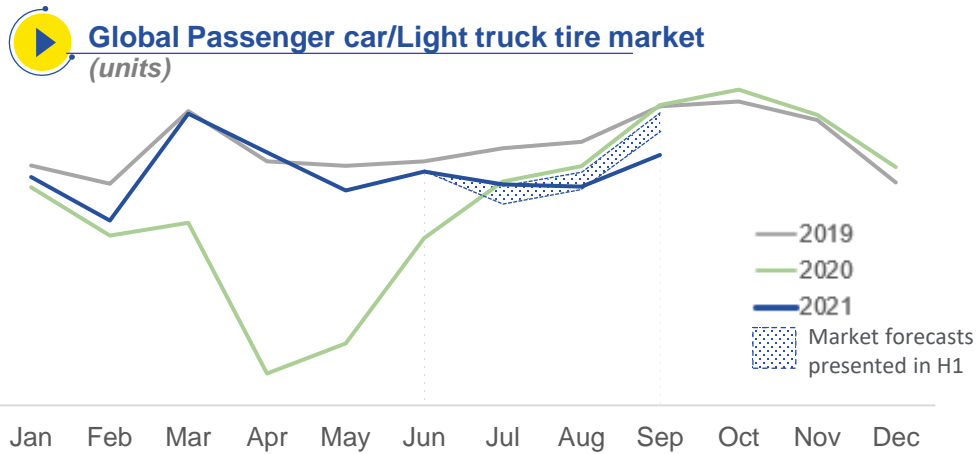

THE SHARP SLOWDOWN IN OE PC/LT MARKETS IS WEIGHING ON DEMAND, IN AN ENVIRONMENT THAT IS LIKELY TO REMAIN DISRUPTED FOR LONG

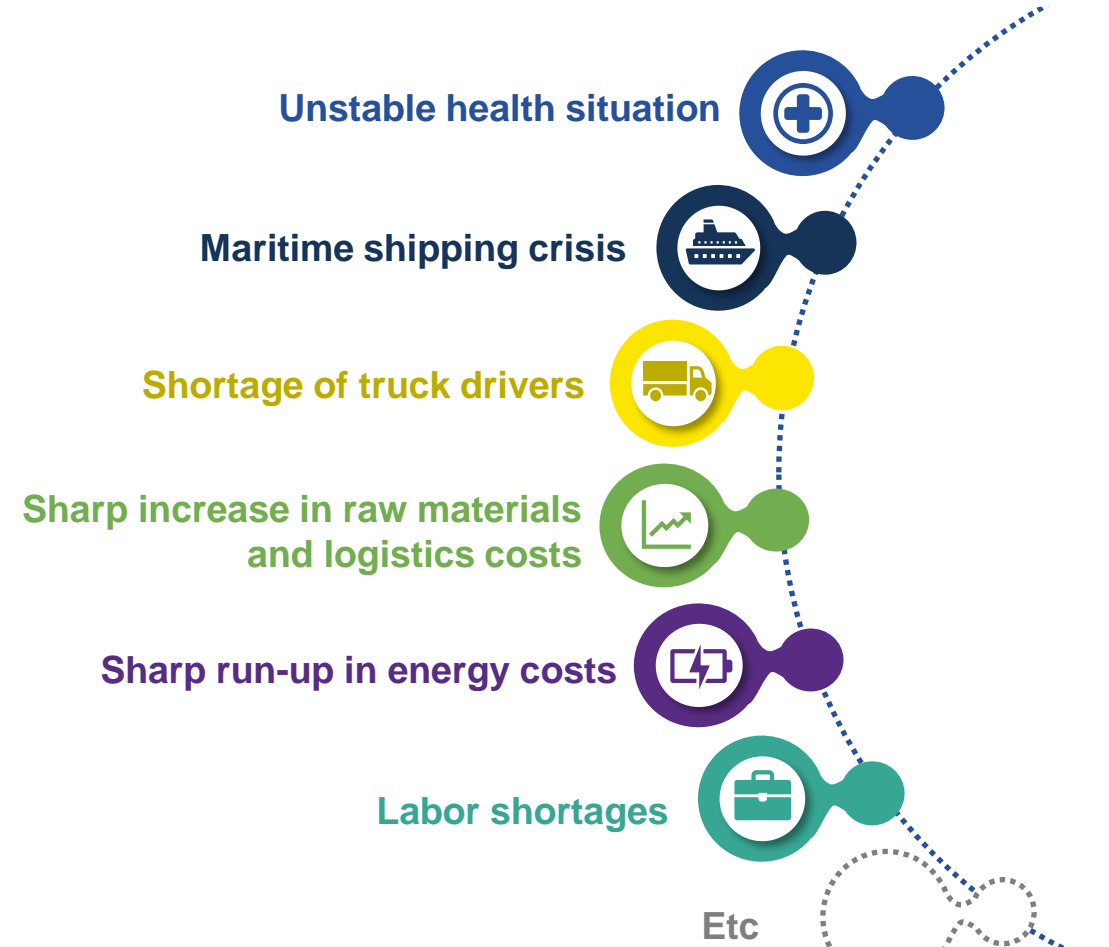

Demand has suffered in PC/LT from the slowdown in OE markets, but remains robust in the RT segment and in Truck tires excluding China...

... in an environment that is likely to remain disrupted for a long time across every supply chain

Source: Michelin Market data are regularly adjusted and may be updated following their initial publication.

4 Sales at September 30, 2021 – October 25, 2021

9M 2021 MARKETS: PC/LT DOWN ON 2019, TRUCK TIRES BACK IN LINE. SPECIALTIES EXPECTED TO REBOUND OVER THE FULL YEAR.

Source: Michelin market data are regularly adjusted and may be updated following their initial publication.

(1) Including Central America

9M 2021: TIRE SALES UP, LIFTED BY THE FIRST-HALF REBOUND IN DEMAND, A ROBUST MIX AND DISCIPLINED PRICE MANAGEMENT. NON-TIRE SALES UP €47M, OR 5.8% AT CONSTANT EXCHANGE RATES.

Analysis of Nine-month sales

(in € millions and %)

* Deconsolidation of the printing, publishing and marketing businesses associated with Maps & Guides for France (Michelin Editions) on February 1, 2021, and of Solesis on May 28, 2021; consolidation of TechnoBalt on May 1, 2021, ConVeyBelt on May 1, 2020 and MAV S.p.A. on December 1, 2020.

**Q3 2021: TIRE SALES UP, LIFTED BY A ROBUST MIX AND DISCIPLINED PRICE MANAGEMENT.
NON-TIRE SALES UP BY €22 MILLION, OR 8.2% AT CONSTANT EXCHANGE RATES.**

Analysis of quarterly sales

(in € millions and %)

* Deconsolidation of the printing, publishing and marketing businesses associated with Maps & Guides for France (Michelin Editions) on February 1, 2021, and of Solesis on May 28, 2021; consolidation of TechnoBalt on May 1, 2021, ConVeyBelt on May 1, 2020 and MAV S.p.A. on December 1, 2020.

**SALES GROWTH IN EVERY SEGMENT.
RESPONSIVE PRICING POLICIES IN ALL NON-INDEXED BUSINESSES.**

<i>(in € millions)</i>		Nine months 2021	Nine months 2020	Change
	RS1 sales	8,603	7,236	+18.9%
	RS2 sales	4,503	3,870	+16.4%
	RS3 sales	4,098	3,782	+8.4%

At a time of steeply rising costs and significant supply chain disruptions:

- **RS1:** strong growth in sales led by responsive pricing management, market share gains in 18"+ tires and a favorable OE/RT mix, as OE sales were severely impacted by the shortage of auto semiconductors.
- **RS2:** strong growth in sales led by robust demand in Europe and North America, responsive pricing management and sustained expansion in fleet management solutions.
- **SR3:** higher sales driven by the Beyond Road businesses (Construction, Agricultural, Material Handling) over the first nine months, creating a negative business mix; in the non-indexed businesses, disciplined price management was not enough to offset the sharp run-up in costs over the short term (because raw materials clauses are adjusted only every six months on average). Turmoil in the supply chain is complicating finished product shipments, particularly for the Mining tire business.

2021 GUIDANCE

2021 MARKET SCENARIO: IN A HIGHLY TURBULENT ENVIRONMENT, DEMAND STILL LAGS BEHIND 2019 LEVELS

PC/LT: +6% / +8%*

- OE: OEM supply chain constrictions are weighing on demand more heavily than forecast in the first half
- RT: global demand remains high, despite signs of a slowdown in China

PC/LT market forecast (units)

* vs 2020

TRUCK: +6% / +8%*

Truck tires excl. China: +11% / +13%*

- OE: markets rebounding outside China, from higher comparatives in the second half
- RT: global demand excluding China remains strong, buoyed by freight demand in every region

Truck market forecast, excluding China (units)

SPECIALTIES: +9% / +11%*

- Mining tires: demand remains robust, but supply chain disruptions are complicating shipments
- Off-the-road tires: fast growing demand
- Two-wheel tires: sustained growth
- Aircraft tires: growth in demand from weak comparatives

2021 SCENARIO

	2021
Volumes	Slightly above markets
Net price-mix/raw materials effect	Positive including in the second-half
Cost impact of raw materials prices, customs duties, logistics and energy	Strongly negative
Currency effect*	Strongly negative

* See slide 21

ESG AWARENESS AND OVERSIGHT ARE FULLY EMBODIED IN MICHELIN'S GOVERNANCE STRUCTURE

SUPERVISORY BOARD - CSR COMMITTEE

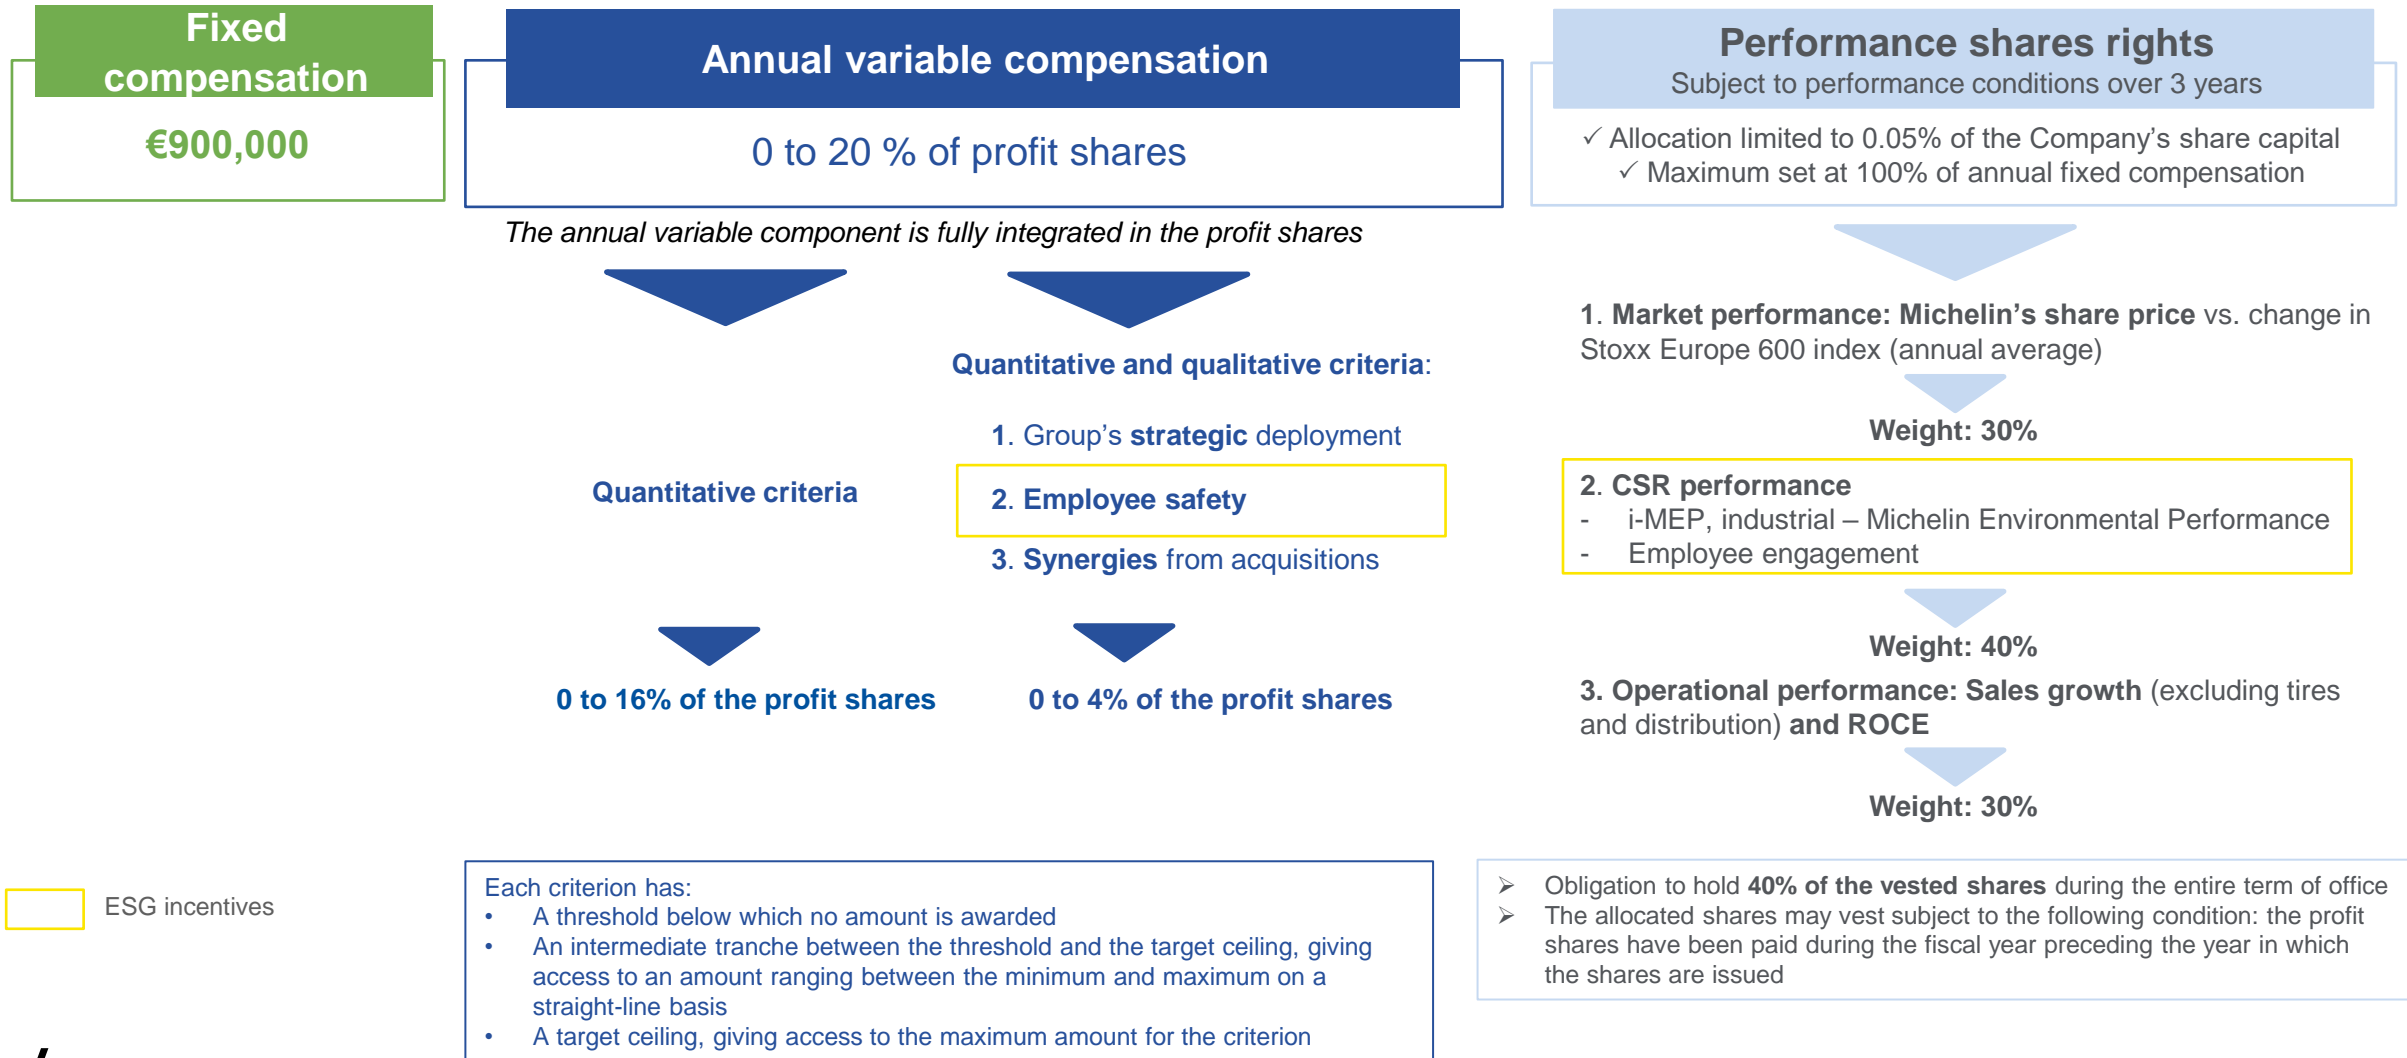

STAKEHOLDERS COMMITTEE

At the corporate executive level, a Stakeholders Committee set up in 2016 brings together 12 people representative of the Group's leading stakeholders, including suppliers, investors, unions, customers and NGOs. Four continents are represented on the Committee, which meets with the Executive Committee for a full day at least once per year.

ESG IS MANAGED AT HIGHEST LEVEL BY AN INCENTIVIZED TEAM

Florent Menegaux, Managing Chairman, compensation for 2021

ABOUT TIRE AND ROAD WEAR PARTICULES (TRWP)

TRWPs are tiny debris produced by the friction between tires and the road.
This friction is what ensures grip and safety on the road.

Scientific studies conducted to date by the TIP⁽¹⁾, the ETRMA⁽²⁾ and l'EAA⁽³⁾ suggest that:

- 2% to 5% of TRWPs reach estuaries;
- TRWPs represent only a minor fraction of airborne particule matter (PM10 and PM2.5).

(1) TIP - Tire Industry Project

(2) ETRMA – European Tyre & Rubber Manufacturers Association

(3) Agence Européenne de l'Environnement – EEA report 10/2019

TRWP

5×10^{-2} mm

- Characteristics: mixture of rubber and road surface minerals
- High density: 1,8
- Diameter : ~100 µm
- High degradability rate: **50% of TRWP disappeared in 16 months**

MICROPLASTICS

5 mm

- Characteristics: bits of plastics floating / suspended in water
- Diameter: ~ 5mm
- Degradability rate: **very low**

APPENDICES

2023 TARGETS & 2030 AMBITIONS

CAPITAL MARKETS DAY: RELIVE THE EVENT

A dedicated page has been created for the event on the www.michelin.com website. It features a number of [replayable](#) videos that review the day's presentations and offer insight into the following themes, which are going to drive the Group's sustainable growth:

- [Michelin's Environmental Leadership](#): Focus on the Automotive segment
- [Industry 4.0](#): a key lever to improve our industrial efficiency
- [Services and Solutions](#): understanding customer needs and how our products are used enables us to develop and offer high value-added solutions
- [High-Tech Materials](#): leveraging our R&D expertise in materials, to develop new growth avenues
- [Metal 3D Printing](#): a unique offering in a very high-potential market
- [Hydrogen](#): becoming a global player in hydrogen mobility

The **digital version of the 2020 Annual Report** is available on the Group's corporate site at the following address:

SERVICES AND SOLUTIONS: DEVELOPING AND ENRICHING OUR VALUE PROPOSITION FOR FLEETS AND MOBILITY

Expanding our customer base
Reaching new territories

SERVICES AND SOLUTIONS: KEY LEVERS TO REACH OUR AMBITIONS

HIGH-TECH MATERIALS: STRENGTHENING OUR POSITIONS ALONG THE VALUE CHAIN

CURRENT ACTIVITIES

Recovered materials
Lehigh TECHNOLOGIES
enviro
SCANDINAVIAN ENVIRO SYSTEMS

Sustainable monomers and polymers

PYROWAVE
CLOSING THE LOOP

Special adhesives

Compounding

Coated fabrics & Reinforcements
 Belting products & solutions

High-end polymers
Fenner
PRECISION POLYMERS
 A Michelin Group Company

Conveyors

FENNER & DUNLOP
ENGINEERED CONVEYOR SOLUTIONS

TARGET POSITIONING

Accelerator of differentiating technologies for tires and 'rubber goods', in the field of bio-sourced materials and recycling

Leading player in the field of special adhesives and tailor-made polymers

Global leading player with significant position (in top 3) in targeted segments, requiring high level of technicity and demanding balance of performance

HIGH-TECH MATERIALS: ACCELERATING THE DEVELOPMENT OF 3 MAIN ECOSYSTEMS THROUGH PARTNERSHIPS FOR SUSTAINABLE GROWTH

REGENERATIVE MEDICINE & CELLULAR THERAPY

MARKET POTENTIAL

Cell & gene therapy	Cardio medical devices
+20% CAGR 2020-2030	>10% CAGR 2020-2030

AMBITIONS ⁽¹⁾

Becoming a leading innovation and manufacturing partner	Being the manufacturing operator customers' trust
Cell therapy Bioresorbables Regenerative medicine	

(1) Michelin holds a 49% stake in Solesis (equity-accounted company)

HYDROGEN MOBILITY

MARKET POTENTIAL

AMBITIONS ⁽²⁾

Becoming a leader in fuel cell stack systems

€0.2bn sales in 2025	€1.5bn sales in 2030
--------------------------------	--------------------------------

(2) 100% of Symbio - Michelin holds a 50% stake in Symbio (equity-accounted company)

3D METAL PRINTING

MARKET POTENTIAL

Medical & aerospace are the most industrial-scale end markets

+23% CAGR 2020-2030	~\$13bn in 2030
-------------------------------	---------------------------

AMBITIONS ⁽³⁾

€100m sales and breakeven by 2023	>€500m sales by 2030
--	-----------------------------------

(3) 100% of AddUp
Michelin holds a 50% stake in AddUp (equity-accounted company)

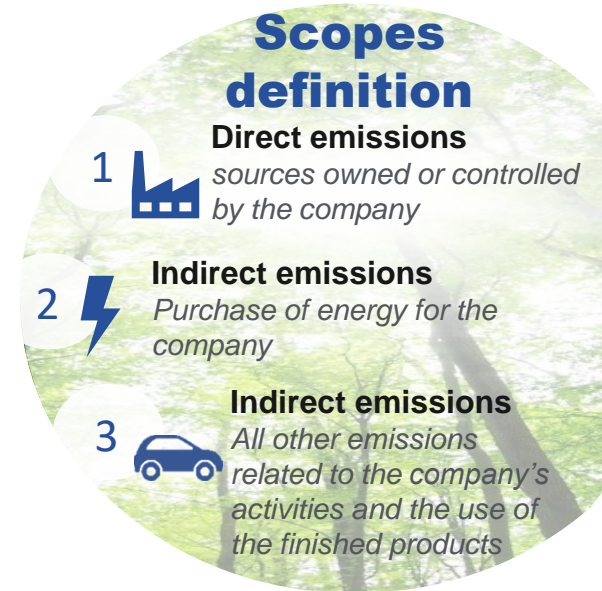

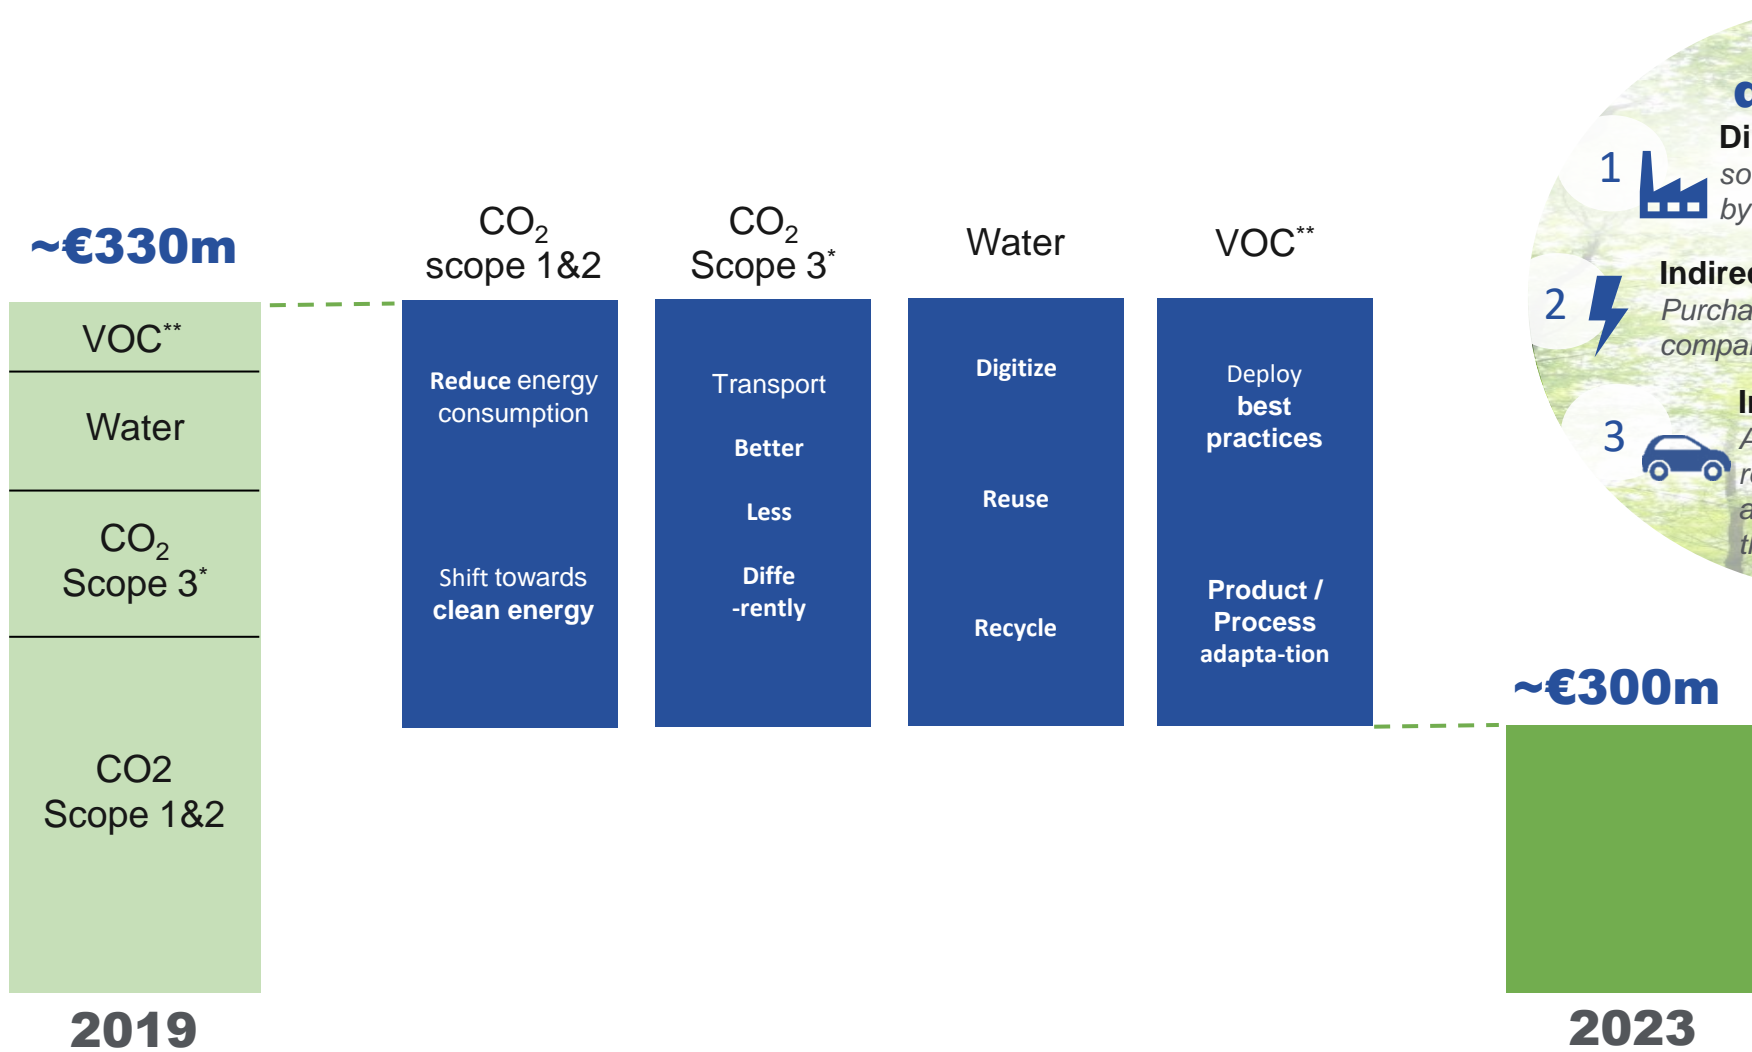

APPENDICES

MICHELIN'S SUSTAINABLE LEADERSHIP

ON THE ROAD TO CARBON NEUTRALITY BY 2050, MICHELIN STARTS TO VALORIZE ITS NEGATIVE EXTERNALITIES IN 2020 AND COMMIT TO A 10% REDUCTION AS EARLY AS 2023

(1) Only transport and distribution upstream and downstream of Natural Rubber, semi-finished and finished goods

(2) Volatile organic components

ENVIRONMENTAL AWARENESS, THROUGHOUT THE LIFECYCLE OF MICHELIN'S PRODUCT, STARTING FROM R&D DESIGN

RAW MATERIALS
Sustainable natural rubber supply

MANUFACTURING
Reducing impact

LOGISTICS
Reducing the carbon footprint

USE OF PRODUCTS AND SERVICES

63% to 96% of the life cycle impact

Low rolling resistance – reduce CO₂ emissions
Safe when new, safe when worn

MATERIALS RECYCLING

Recycling systems / Circular economy

ENERGY RECOVERY

END OF LIFE

RETREADING

Substantial savings in raw materials

ON THE PATH TO REACH FULL CIRCULARITY OF PRODUCTS WITH 40% OF SUSTAINABLE RAW MATERIALS IN 2030, 100% IN 2050

NATURAL RUBBER

PLASTIFIERS/RESINS

TEXTILES

SYNTHETIC RUBBER

CHARGES

METALS

OTHER

In 2021, we will race with a Moto E tyre made of 40% sustainable materials

(1) European project funded by Horizon 2020, project number: 82068

(2) With the support of ADEME (ADEME: French Environment & Energy Management Agency)

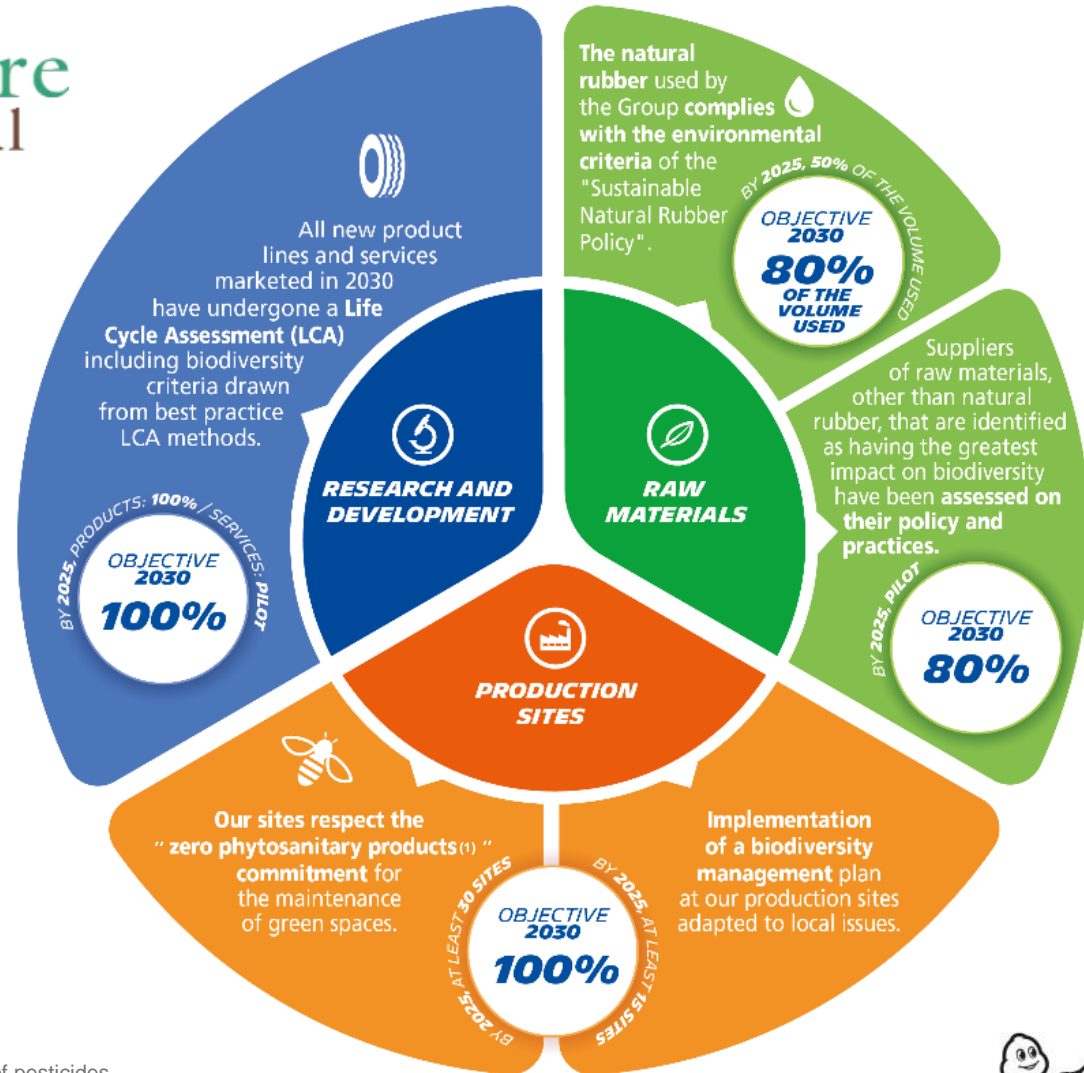

ENVIRONMENT PROTECTION: MICHELIN IS A LEADER IN ACTING FOR BIODIVERSITY PROTECTION

AMBITIONS FOR 2030

▶ BIODIVERSITY

act4nature international

(1) Replacement of pesticides and fertilizers by mechanical methods combined with other alternative solutions

2030 ENVIRONMENTAL AMBITION: ON THE PATH TO REACH CARBON NEUTRALITY IN 2050

PLANET

Scope 1 & 2

Shifting towards clean energy

Reducing in energy consumption

2030

-50% CO₂ emissions vs 2010

2050

Carbon Neutrality

Scope 3 logistic

Less, better and differently

2030

-15% CO₂ emissions vs 2018

2050

Carbon Neutrality

Scope 3 supply chain

2024

70%

of emissions from suppliers covered by science-based targets (SBT)

Suppliers setting ambitious reduction targets

2050

Carbon Neutrality

CONTINUOUSLY IMPROVING THE ENVIRONMENTAL PERFORMANCE OF OUR PRODUCTION SITES

2030 OBJECTIVES

REDUCTION OF THE INDUSTRIAL ENVIRONMENTAL IMPACT BY 1/3 ⁽¹⁾ THROUGH 5 PROGRAMS

WATER WITHDRAWALS

-33% ⁽¹⁾

(m³/t weighted by water stress index)

GENERATED WASTE

-25% ⁽¹⁾

(kg/t)

ORGANIC SOLVENT CONSUMPTION

-50% ⁽¹⁾

(kg/t)

ENERGY CONSUMPTION

-37% ⁽²⁾

(GJ/t)

CO₂ EMISSION

-50% ⁽²⁾

(t)

(1) vs 2019, see p.150 of the 2020 Universal Registration Document

(2) vs 2010

/t = ratio basis on semi-finished or finished products volumes

SETTING THE STANDARD FOR EMPLOYEE DIVERSITY AND INCLUSION

EQUAL OPPORTUNITY

Every employee can develop his/her talents within the company. Michelin pays particular attention to the internal promotion of manufacturing operators.

GENDER BALANCE

Achieve parity among Group executives and, by 2030, set the gender balance benchmark in our industry.

DISABILITY

Michelin offers career paths to people of all abilities according to its talent development policy.

IDENTITY

(All D&I* aspects, e.g., age, sexual orientation, ethnicity, religion, etc.)
Enable every person to be who they really are and to bring their authentic selves to work.

* Diversity & Inclusion

MULTI-NATIONAL MANAGEMENT

All our host country nationalities and cultures are represented in all corporate functions in the operating regions and at headquarters, in line with the geographical footprint of each business.

Free cash flow (FCF)

FCF is stated before dividend payments and financing transactions. It corresponds to net cash from operating activities less net cash used in investing activities, adjusted for net cash flows relating to cash management financial assets and borrowing collaterals.

Structural free cash flow

It corresponds to free cash flow before acquisitions, adjusted for the impact of changes in raw material costs on trade payables, trade receivables and inventories

ROCE

In the 2016-2020 Plan, ROCE was calculated as

- Net operating profit after tax (NOPAT), calculated at a standard tax rate of 25% in 2020 and 26% in 2019, corresponding to the Group's average effective tax rate;
- Divided by the average economic assets employed during the year (excluding equity-accounted companies), i.e., all of the Group's intangible assets (excluding acquired intangible assets), property, plant and equipment, loans and deposits, and net working capital.

As from 2021, ROCE will be measured by the Group by adding back

- Amortization of acquired intangible assets and profit from equity-accounted companies to the numerator and
- Goodwill, acquired intangible assets and investments in equity-accounted companies to economic assets in the denominator.

Tire Sales

Correspond to sales related to the core activity of Michelin including Tire as a Service (TaaS) and Distribution.

Non-tire sales

Correspond to sales of following activities: Services and Solutions (excl. TaaS and Distribution), Conveyor Belts and High-Tech Materials excluding JVs

DISCLAIMER

"This presentation is not an offer to purchase or a solicitation to recommend the purchase of Michelin shares. To obtain more detailed information on Michelin, please consult the documents filed in France with Autorité des marchés financiers, which are also available from the <http://www.michelin.com/eng/> website.

This presentation may contain a number of forward-looking statements. Although the Company believes that these statements are based on reasonable assumptions as at the time of publishing this document, they are by nature subject to risks and contingencies liable to translate into a difference between actual data and the forecasts made or inferred by these statements."
