ASSESSMENT OF THE SUPERVISORY BOARD'S PRACTICES

The following matters were covered:

- Supervisory Board practices;
- Supervisory Board membership;
- experience and expertise represented on the Board;
- the Board's relations with the Managers, shareholders and other stakeholders;
- practices of the Committees of the Supervisory Board

The assessment underscored the importance of:

- continuing to focus on putting the competitive environment, risks and human resources management issues into perspective

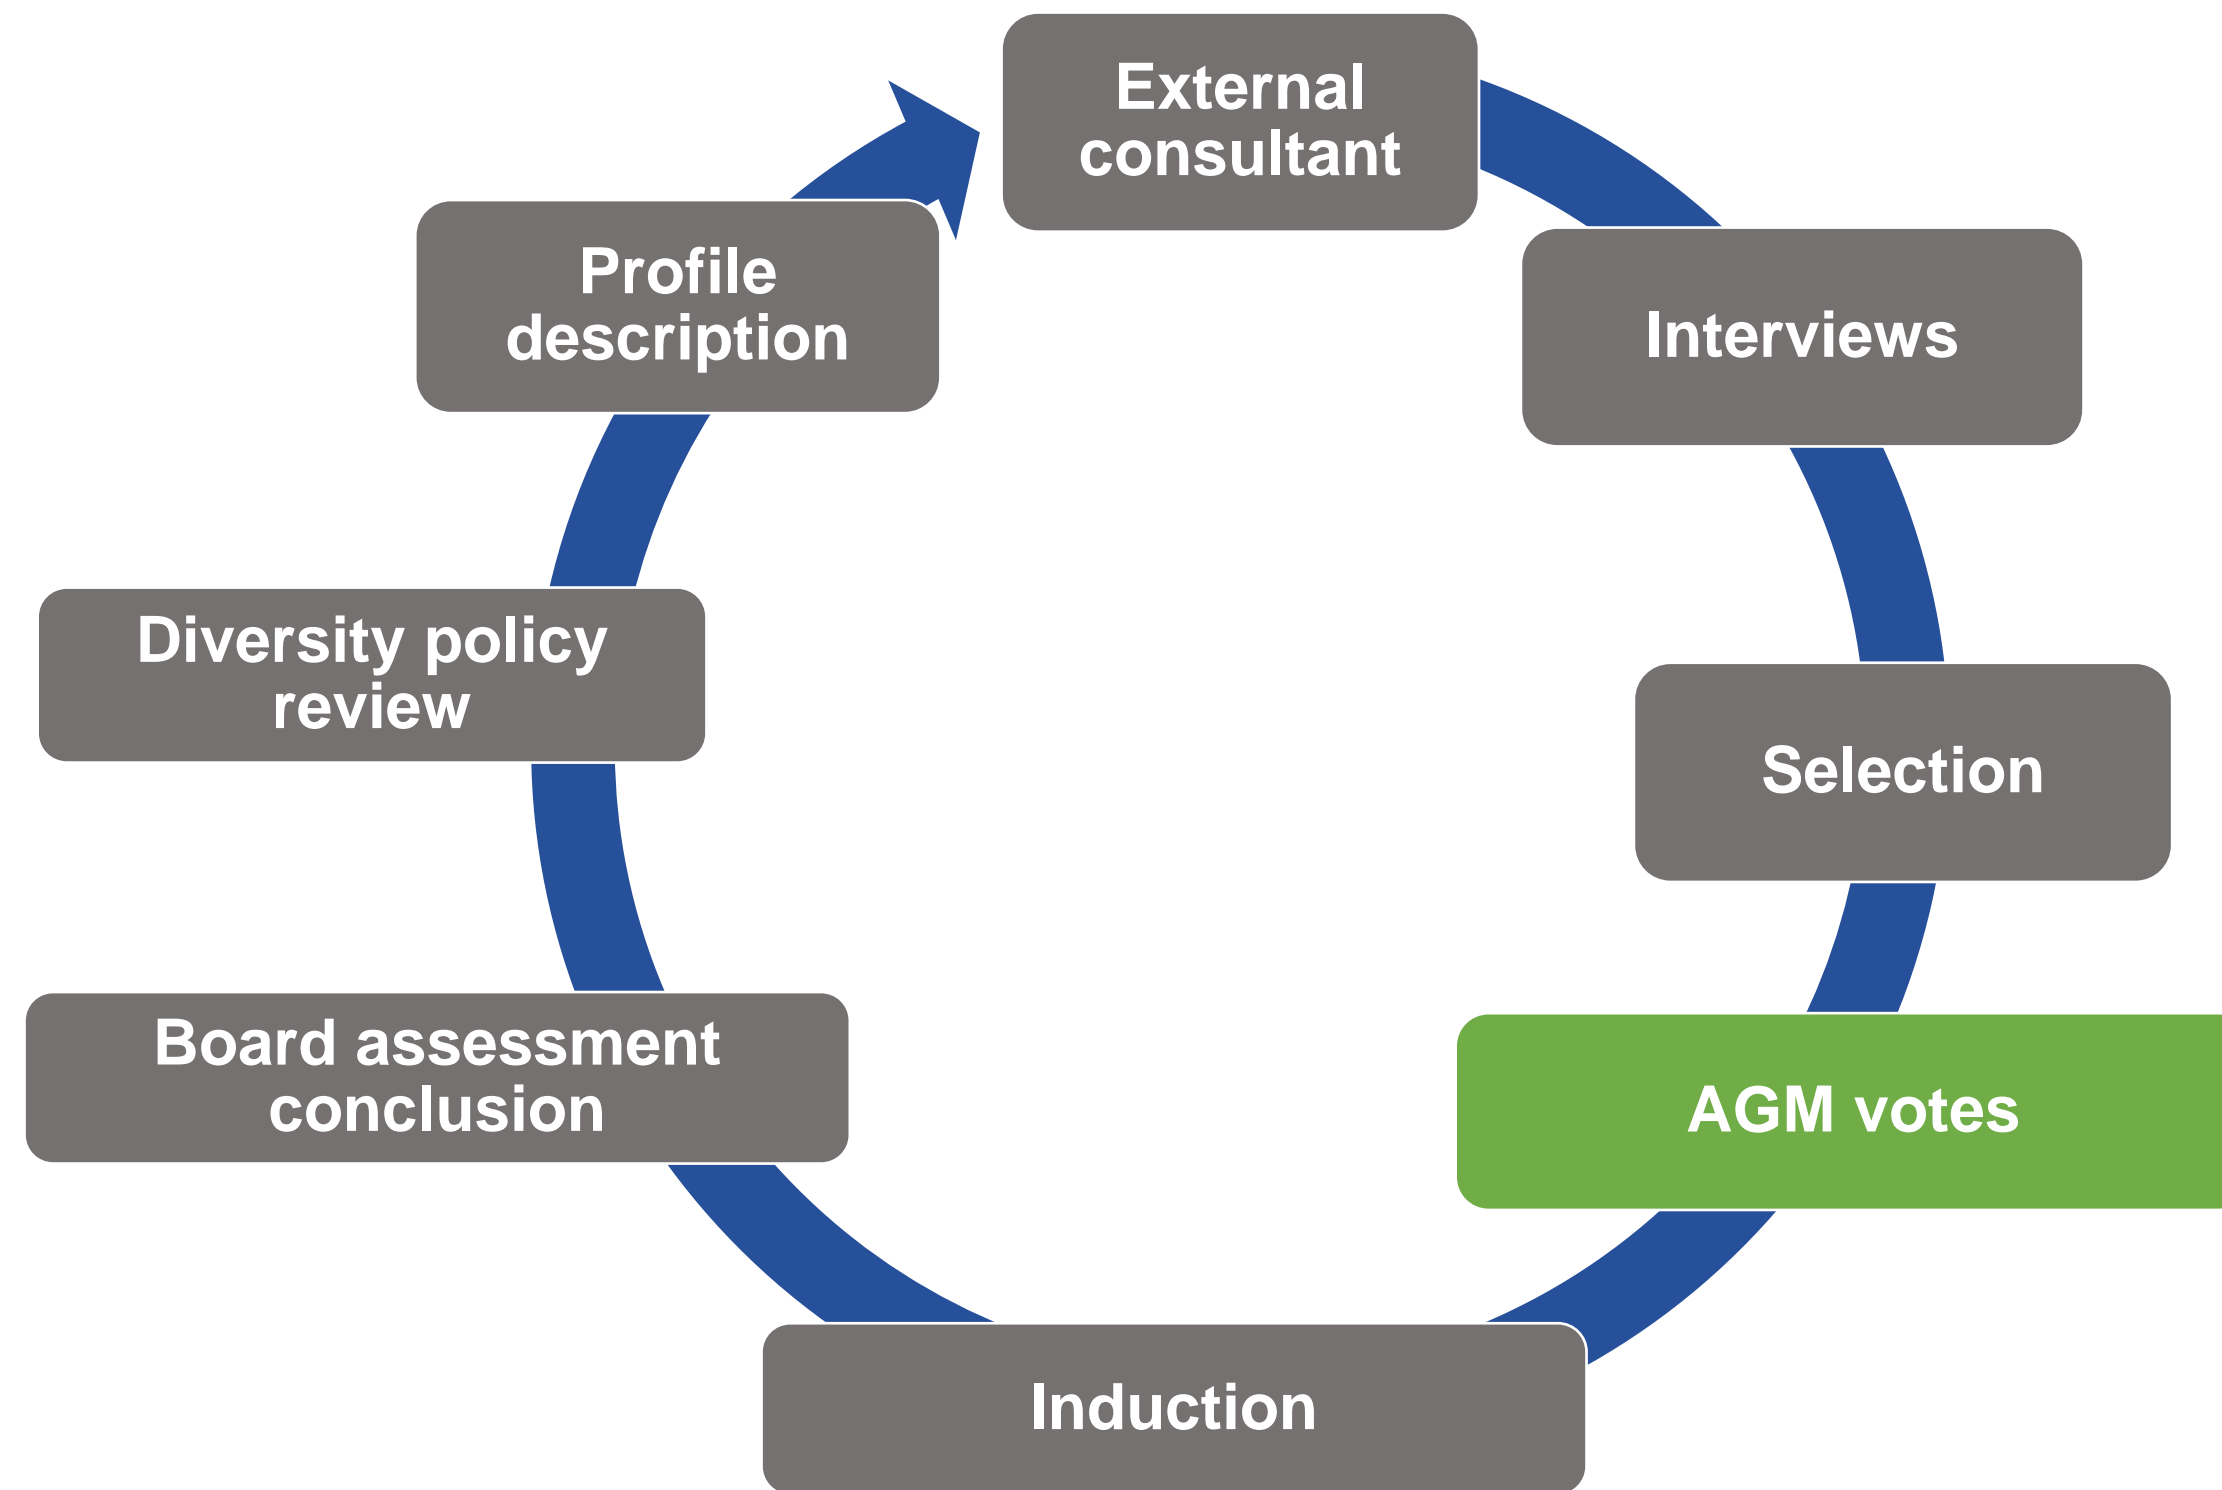

The following points were noted:

- ✓ the Board's culture is perceived as being very positive;
- ✓ the relationship with the Managers is very positive, constructive and interactive, allowing for a real process of continuous improvement;
- ✓ the creation of the CSR Committee has been a success;

GOVERNANCE

As part of the Supervisory Board's role of exercising permanent oversight of the Group's management, the CSR Committee began to review the climate strategy and issue recommendations.

STRATEGY

Four climate scenarios comprising narrative descriptions and quantitative socio-economic and physical assumptions were updated, deepened and deployed

for use at two levels:

- by the business lines, regional organizations, operating units, corporate departments and other units as part of strategic thinking and ideation exercises,
- by the Group Executive Committee, to compare them to Group strategy and analyze their resilience about climate change and other indirect risks arising from the environmental transition.

RISK MANAGEMENT

In 2021, an initial internal audit of systemic physical risks was performed and the first pilot study of the vulnerability of certain Group operations was completed

METRICS AND TARGETS

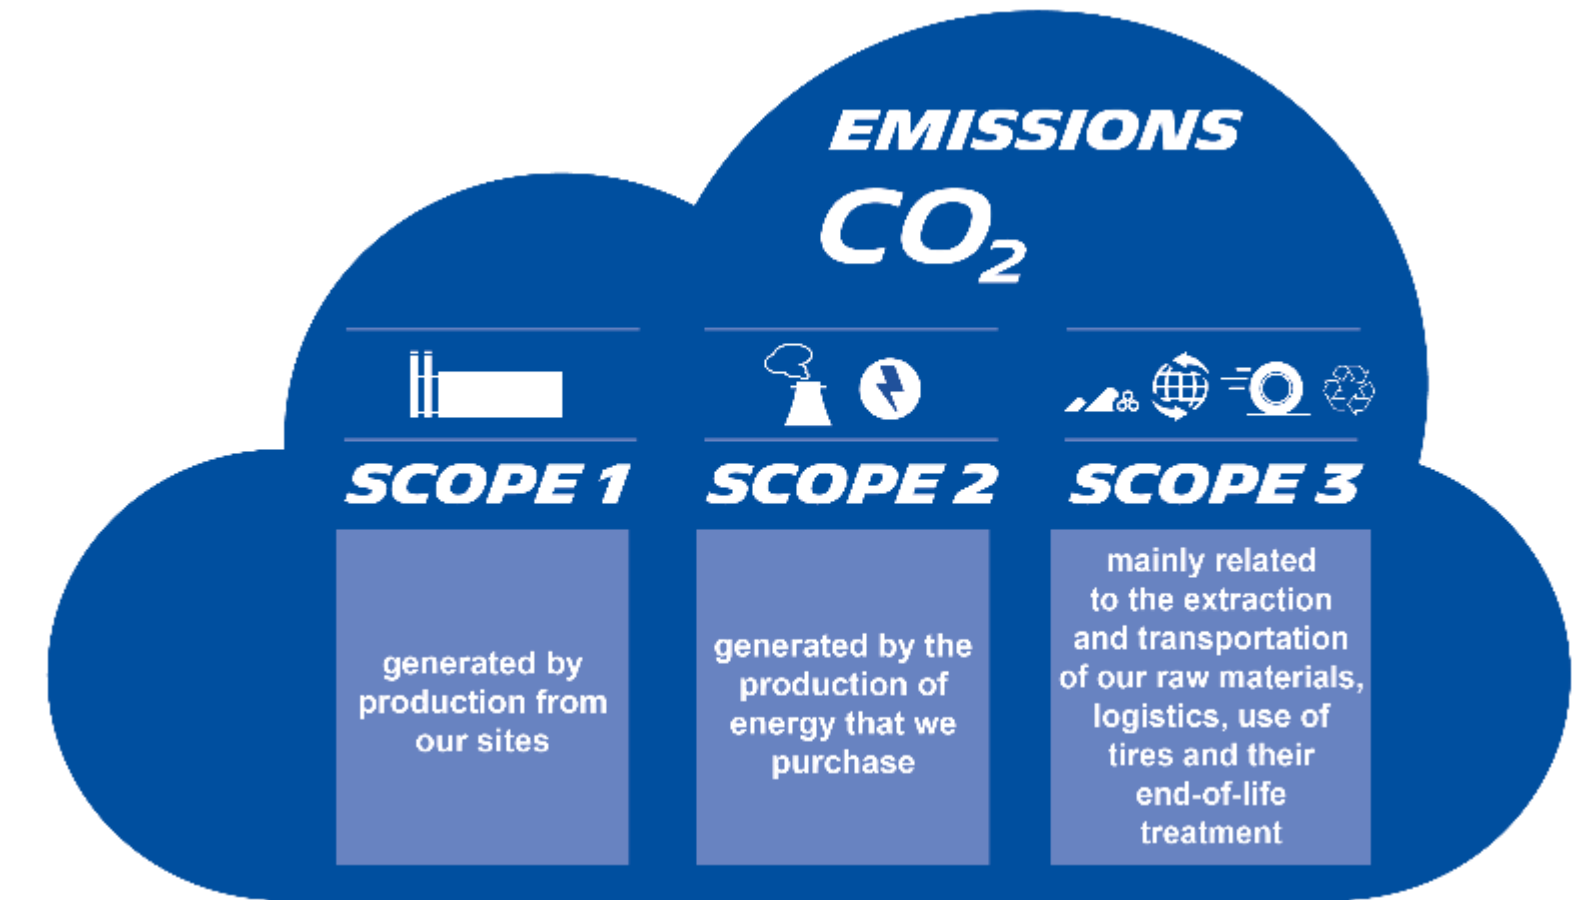

Joining the "Race to Zero" campaign, answering the call to action led by the Science Based Targets initiative (SBTi), the United Nations Global Compact and We Mean Business and committing to reach net zero emissions by 2050.
