2022 ANNUAL RESULTS

February 13, 2023

With sales up 20.2% in 2022, Michelin delivered its segment operating income guidance by reaching €3.4bn

Amid market turbulence and a highly inflationary context, Michelin sales increased to €28.6Bn and segment operating income totaled €3.4Bn.

Free cash flow was punctually impacted by inflation and year-end trade timing.

Over the 2019-2022 period, the Group has demonstrated the resilience of its business model.

- Sales up 20.2% to €28.6bn, lifted by firm pricing discipline and fast-growing non-tire sales
 - Tire markets up slightly in 2022, supported by OE (from a low comparison basis) and sustained demand from Truck and Mining tire customers.
 - Tire sales volumes down, mainly impacted by the conflict in Ukraine and the Covid consequences in China, and reflecting Group's priority set on margin protection.
 - The price-mix effect came to 13.7%, demonstrating the Group's determination to offset all cost inflation factors.
 - Non-tire sales grew by 22% at constant exchange rates, confirming their strong momentum.
 - A 6.2% positive currency effect, led by the US dollar.
- Segment operating income totaled €3.4bn or 11.9% of sales, driven by dynamic pricing management
 - Pricing maintained unit margin integrity, offsetting a record €2.7bn in higher costs.
 - Operating margin reflected a 1.2-point dilutive effect from price increases.
 - Each reporting segment contributed to improved segment operating income, with Specialties (RS3) margin reaching 16.2% in H2 2022
- Reported free cash flow before acquisitions of - €104m. Structural free cash flow ⁽¹⁾ of +€378m
 - One-off impact of inflation on working capital, reducing structural free cash flow ⁽¹⁾ by ~ €500m
 - Q4 penalized by purchasing cuts and stronger December sales for c. €300m, which will be offset in Q1/2023
- Overall Group performance improved in line with the "Michelin in Motion 2030" strategic plan objectives set for each of its three People, Profit, Planet pillars
- Net income reached €2.0bn. Dividend of €1.25 per share proposed to the AGM
- 2023 guidance : > €3.2bn in segment operating income at constant exchange rates; > €1.6bn reported FCF before acquisitions ⁽¹⁾

⁽¹⁾ Definition : see slide 61

Over the 2019-2022 period, the Group increased its margin amid unprecedented market turbulences and cost inflation

ANALYSIS OF FY SALES

(in € millions and as a % of 2021)

* Deconsolidation of the printing, publishing and marketing businesses associated with Maps & Guides for France (Michelin Editions) on February 1, 2021, and of Solesis on May 28, 2021; consolidation of TechnoBalt on May 1, 2021, and Allopeus.com on December 30, 2021.

Segment operating income increase driven by dynamic pricing management, offsetting a record €2.7bn in cost inflation

ANALYSIS OF SEGMENT OPERATING INCOME (SOI)

(in € millions)

⁽¹⁾ Segment operating income

Roadshow USA Canada - March 20 & 21, 2023

Sales & SOI⁽¹⁾ growth in every segment, strong catch-up in the Specialty businesses

SALES AND SOI BY REPORTING SEGMENT

(in € millions)

		2022	2021	CHANGE	
RS1		SALES	14,138	11,998	+17.8%
		OPERATING INCOME* Operating margin*	1,711 12.1%	1,643 13.7%	+4.1% -1.6 pts
RS2	 	SALES	7,462	6,233	+19.7%
		OPERATING INCOME* Operating margin*	641 8.6%	599 9.6%	+7.0% -1.0 pt
RS3	   	SALES	6,990	5,564	+25.6%
		OPERATING INCOME* Operating margin*	1,044 14.9%	724 13.0%	+44.2% +1.9 pts

* For the segment

Cost inflation factors (raw materials, transportation and energy) were offset by dynamic pricing management but diluted operating margin by 1.2 point.

- **RS1:** growth in sales and operating income driven by responsive pricing management and sustained product mix enrichment, both in OE and RT. The share of 18"+ tires accounted for 56% of MICHELIN-branded tire sales, up 5 points vs. 2021.
- **RS2:** sales and operating income increase fueled by robust demand in Europe and North America and responsive pricing management to offset cost inflation. Focus on the highest value-creative segments and expansion in fleet management solutions.
- **RS3:** strong growth in sales and operating income boosted by prices adjustments in H2 after indexation clauses kicked in, with H2 SOI⁽¹⁾ reaching 16.2%. Mining business line recovered as expected during 2nd half. Beyond Road activities (agriculture, construction, etc.) reinforced focus on highest value-creative segments

⁽¹⁾ Segment operating income

Roadshow USA Canada - March 20 & 21, 2023

EBITDA up to €5.3bn, or 18.4% of sales. Free cash flow penalized by inflation in working capital

 (2) DEKRA studies in 2020 (MARK20B, MARK20E) and 2021 (MARK21E)

Tire and road wear particles (TRWP): definition and state of knowledge

TRWP are tiny debris generated by abrasion from a tire's contact with the road surface. **This abrasion is caused by the tire's grip and keeps the tire safely on the road.**

SCIENTIFIC STUDIES⁽¹⁾ HAVE STARTED TO MEASURE THE ENVIRONMENTAL IMPACT OF TRWP:

AIR

Studies confirm that TRWP account for only a very small proportion (<1%) of particulate matter pollution

WATER

Studies suggest that most TRWP never reach estuaries.

TRWP

5×10^{-2} mm

- **Composition:** mixture of rubber and road surface minerals
- **High density:** 1.8
- **Diameter:** ~100 μ m
(100 times smaller than microplastics)

Michelin is strongly in favor of a regulation that would limit the level of wear particle emissions of all tires worldwide. Michelin is working with the ETRMA⁽²⁾ members to define a standardized TRWP emission rate test method, to eliminate the least performing tires from the market with a threshold regulation

SUPERVISORY BOARD - CSR COMMITTEE

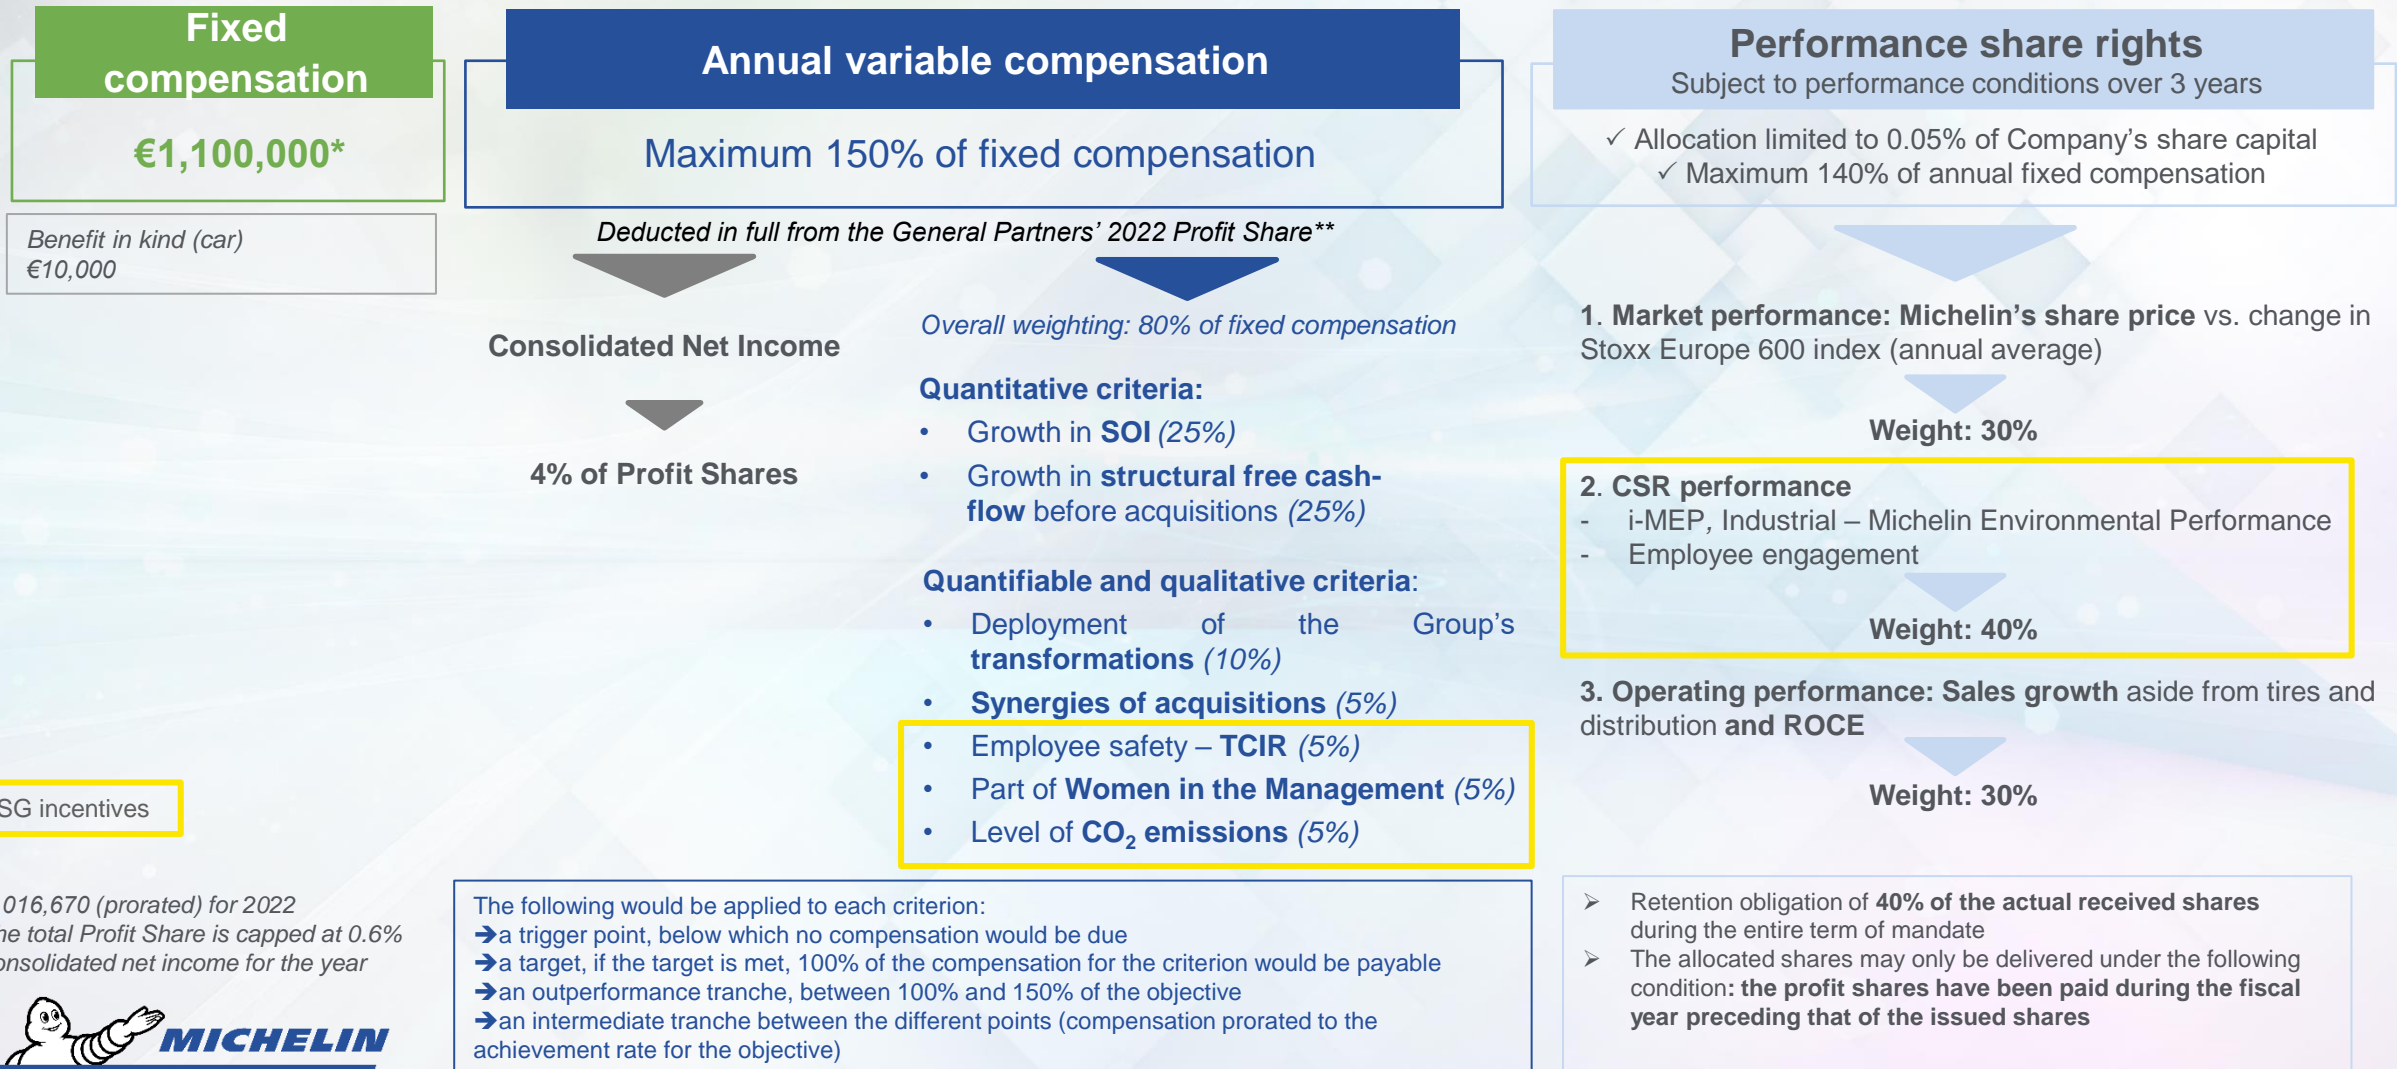

STAKEHOLDERS COMMITTEE

At the corporate executive level, a Stakeholders Committee set up in 2016 brings together 12 representatives of the Group's leading stakeholders, including suppliers, investors, unions, customers and NGOs. Four continents are represented on the Committee, which meets with the Executive Committee for a full day at least once per year.

ESG criteria are included in Managers' compensation and shared with all employees regarding performance share plans

2022 COMPENSATION POLICY FOR FLORENT MENEGAUX, MANAGING CHAIRMAN

Glossary

FREE CASH FLOW (FCF)

Free cash flow, which is stated before dividend payments and financing transactions, corresponds to net cash from operating activities less net cash used in investing activities, adjusted for net cash flows relating to cash management financial assets and borrowing collaterals.

STRUCTURAL FREE CASH FLOW

Corresponds to free cash flow before acquisitions, adjusted for the impact of changes in raw materials costs on trade payables, trade receivables and inventories. The structural free cash flow is calculated on full year basis only.

ROCE

Return on capital employed is measured as follows:

net operating profit after tax (NOPAT)(1), calculated at a standard tax rate of 25%, corresponding to the Group's average effective tax rate;

divided by average economic assets employed during the year (2), i.e., all of the Group's intangible assets, property, plant and equipment, loans and deposits, investments in equity-accounted companies, and net working capital requirement.

TIRES SALES

Correspond to sales from Michelin's core business, including the Tire as a Service (TaaS) business and Distribution operations.

NON-TIRE SALES

Correspond to sales from the Services and Solutions (excluding TaaS and Distribution), Conveyor Belts and High-Tech Materials businesses, excluding joint ventures.

Free Cash Flow (FCF)

+ M&A

= Free Cash Flow before M&A

+/- Adjusted for the impact of changes in raw materials costs

= **Structural Free Cash Flow**

(1) NOPAT = Segment operating income + amortization of acquired intangible assets + the Group's share of profit from equity-accounted companies.

(2) Average between the opening and closing balance sheets for the year.

"This presentation is not an offer to purchase or a solicitation to recommend the purchase of Michelin shares. To obtain more detailed information on Michelin, please consult the documents filed in France with Autorité des marchés financiers, which are also available from the <http://www.michelin.com/en/> website.

This presentation may contain a number of forward-looking statements. Although the Company believes that these statements are based on reasonable assumptions as at the time of publishing this document, they are by nature subject to risks and contingencies liable to translate into a difference between actual data and the forecasts made or inferred by these statements."
