THE SOFT AND MEDIUM REAR TIRES ARE BOTH COMPETITIVE, WITH DIFFERENT CHARACTERISTICS

Buriram is one of the most demanding circuits on the calendar in terms of thermal constraints. This circuit combines several unfavourable factors: very long straights that heavily load the rear tire, extremely high track temperatures, and asphalt with

limited grip that promotes wheelspin during acceleration phases.

In these conditions, managing 'spinning' is crucial. Teams will have to work intensively on bike settings and electronics to limit wheelspin and preserve tire performance over distance. Wear levels are high, but they remain under control, and both grip

and consistency are there. The Soft and Medium rear tires are both competitive, with different characteristics, which will give riders real freedom of choice.

The atmosphere at Buriram is always exceptional, with very passionate fans. After the pre-season tests, the teams arrive here well prepared, and I believe we will witness an intense, closely fought race, with riders ready to push hard from the very first round of the season.

2026 TIRE REGULATIONS

ALLOCATION PER RACE:

22
POWER "SLICK"

10 front slicks

up to 7 A specification

+ up to 7 B specification

12 rear slicks

7 A specification

+ 5 B specification

Riders who participate in both Q1 and Q2:

- ✓ 1 MICHELIN Front Power Slick (of the specification the riders prefer)
- ✓ 1 MICHELIN Rear Power Slick, spec A

13
POWER RAIN :

6 front Power Rain
of 2 specifications

7 rear Power Rain
of 2 specifications

In the case that any 3 of the 5 sessions, being P1, P2, Free Practice, one Qualifying session, and the Sprint (always excluding warm-up), are declared wet, one more set of rain tires will be allocated to every rider, and the allocation automatically becomes: 7 Front rain tires, and 8 Rear rain tires.
