WE HAVE SIMPLIFIED OUR ALLOCATION BY KEEPING SOFT AND MEDIUM TIRES AT BOTH THE FRONT AND REAR

We arrive in Austin with a strong knowledge of the circuit and of the solutions we validated last year with very good performance. As part of the new 2026 philosophy, we have simplified our allocation by keeping Soft and Medium tires at both the front and rear, removing the Hard specification that was available for the front in 2025.

The front tires remain symmetric, and they are heavily stressed on this circuit—probably more than at many other venues on the calendar. At the rear, we have maintained an asymmetric tread with a reinforced right-hand side.

The key point in Austin is the diversity of surfaces. The circuit features several types of asphalt, with varying levels of grip and abrasiveness. The treated areas designed to increase grip significantly accelerate tire wear.

Finally, track temperatures, often around 50°C, add an extra constraint. In this context, tire management will be essential throughout the weekend, both in the Tissot Sprint and in the race. We are confident in our allocation and believe it will allow our partners to fully express their potential.
