WE DECIDED TO RETAIN ONLY THE SOFT AND MEDIUM COMPOUNDS FOR THE FRONT TIRE

Balaton Park Circuit is a relatively short track, with a main straight limited to 665 metres. It is a rather slow but highly technical circuit, offering a good level of grip thanks to its very recent asphalt surface. The entire track was resurfaced

in 2025, ensuring excellent riding conditions for our partners. The surface is also relatively gentle on tires, resulting in generally moderate wear levels in this context.

Following the race held in 2025, during which we offered three front compound options, we decided to retain only the Soft and Medium compounds for the

front tire, identical to those used last year.

The rear tire selection will also remain unchanged, with an asymmetric construction featuring a reinforced left shoulder due to the higher number of corners in that direction. In 2025, the Hard compounds were not used by our partners, which reinforced this choice, especially as weather conditions could be slightly cooler given that this round takes place earlier in the season.
